Instructions on adjusting the Claymore TSA-Lock

The initial combination is 0-0-0. To set your personal combination, follow these steps:

1. Put the dials (d) to the opening combination 0-0-0.
2. Press down the reset button (a) with a tool until you hear a “click” sound.
3. Set your combination by turning the dials (d).
4. Push the button (b) until you hear the “click” sound. The lock will now open to your personal combination.

Now you have finished to set your personal combination, record your combination in a safe and accessible place for further reference. Please check the proper condition of the TSA lock prior to locking your luggage. The manufacturer is not responsible for any improper use of the combination lock. This combination lock has no key.

If your luggage are chosen to be opened and inspected, the TSA inspectors use secured tools to open and relock the luggage without damaging the lock. After inspection please pay attention to position of cylinder, turn any tool, which can be inserted in the cylinder, clockwise until aligned with red dot.
